

BUILD A CATAPULT WITH POPSICLE STICKS AND A SPOON

Materials

- Craft sticks (they also come in cool colors)
- Spoons
- Rubber bands
- Foil (makes great ammo)

Tools

- Your hands!

Instructions

1. Take 5 sticks and stack them, securing one end with a rubber band. You'll need to wrap the rubber band around several times to make it nice and secure.

2. Slide one more stick between the bottom stick and the rest of the stack.

3. Secure the other end with a rubber band.
4. Place the spoon on top, and attach the end of the spoon to the end of the single stick with the last rubber band.

Notes

Crumpled balls of foil and small marshmallows make excellent projectiles for this style of catapult.
